Christmas Color Wand Trick

Effect – Have a volunteer choose one of three color wands while you look away and put one in your hand. When you turn around with the wand behind your back, you can look into the volunteer's eyes and reveal what color he chose.

Presentation - Show the color wands of three different colors – Green, Red, Black. Give all three "color wands" to a volunteer. While you cover your eyes and turn your back, the volunteer chooses one, shows everybody and puts it in your hand. He then hides the other two behind his back. Once you have the third color wand behind your back, look in your volunteer's eyes. Say the three colors: Green, Red, Black. Then, after looking in your volunteer's eyes, reveal which color he chose.

Secret - Although the wands all look alike, there is one key difference. The tips of the RED don't twist. Only one of the GREEN tips twists and both tips of the BLACK twist. As soon as the volunteer hands you the wand, with your eyes closed, put it behind your back. As you look into the eyes of your volunteer and say the colors, test both ends of the rod to tell you which color is behind your back.

Spiritual Application

Use the colors to teach Biblical truth:

- **BLACK** represents that we have all sinned (Romans 3:23).
- **RED** represents the real reason for Christmas—that **Jesus** came to earth to save us from our sins (Matthew 1:21).
- **GREEN** represents eternal life. Christmas trees are "evergreens". In other words, they never lose their color. When you belong to Jesus, you will live with Him forever. Just like a Christmas tree points up, Jesus came to point us to God and through His sacrifice and resurrection, we can have real life—eternal life.
