

# The World's Fastest Knot

## Effect

Drop a metal ring down a chain necklace and watch as it amazingly ties itself into a knot in less than a second.

## How to Use

- Hold the ring between your thumb and finger, in the shape of a C.
- Insert the chain so that it touches the ring in the middle between your thumb and finger. The chain needs to touch the ring on both sides.
- Bring the ring to the top of the chain.
- Do not move your finger.
- Gently slide your thumb up, letting the ring slip off your thumb. Don't try too hard to "let it go," just let it gently slip off. As the ring leaves your hand, it will naturally flip over which is what ties the chain into a knot as it falls.

## Bigger Rings

You can also buy other ring sizes at [www.330resources.org/fastest-knot](http://www.330resources.org/fastest-knot).

## Spiritual Application

This illusion can be used as a tool to draw attention and engage people in conversations. It can also be used as an illustration for not giving up (perseverance), for not knowing something until you are shown (i.e., Romans 10:13-15), or as a springboard to a conversation about things that are or are not impossible—i.e., "This isn't impossible but some things *are* impossible for us. For example, it's impossible for me to get myself into Heaven without Jesus (John 14:6)," etc.
